

Our Quality Policy

At Kookaburra Power Technologies (KTECK), we provide superior-quality energy storage solutions that not only comply with industry standards, regulations and legislation, but also meet customer expectations. We seek continuous improvement by communicating well within our business, creating clear objectives and measuring them against our goals.

Our goals include:

- Delivering high quality products
- Keeping everyone who works with us safe
- Sustainability and protecting the environment
- Striving for customer satisfaction
- Building an inclusive workplace where people thrive
- Excellent outcomes from operations and delivery
- Considering risks and opportunities at all levels of the business

Our HSE Policy

Our leadership will continually improve by having a mindset to talk with our people, whether they are employees, contractors, suppliers, customers or other stakeholders. Through consultation and participation of workers, our people can help KTECK become better at quality, health, safety and the environment, because they know their profession and their needs. There is always room to improve, especially as we strive for the highest possible customer satisfaction.
